Year 2 Design Technology

How can we use textiles to make a puppet?

Retrieval	New Learning
• You can join material together by using glue and tape. • To make a product in DT we design it first.	• To investigate a range of puppets and their features. • To develop and practise sewing skills. • To be able to work with fabric to create a finger puppet. • To be able to design a glove puppet. • To be able to follow a design to make a puppet. • To be able to evaluate a finished product.

Key Vocabulary	Definition
glove puppet	a puppet that fits over your hand and is moved by your fingers.
template	a shape or pattern piece that can be drawn and cut around to create the same shape.
purpose	how your product will be useful to somebody
Running stich	a simple stitch that holds fabric together.
function	the job your product is designed to do
Oversewing stitch	used to join two pieces of fabric together.
design criteria	what the product needs to so or be for it to be successful

DT

Design:

- Begin to develop design ideas and draw and label a product design.
- Understand the purpose of a product and explain why materials have been chosen.

Make:

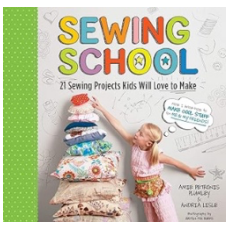

- Choose appropriate tools and materials.
- Join materials in different ways, including sewing.
- Use simple sewing techniques.
- Measure, cut and score with some accuracy.

Evaluate:

- Evaluate a product.
- With confidence, say what they like and dislike about their product.

Beyond the Curriculum

- Read 'Sewing School: 21 Sewing Projects kids will love to make' by Amie Plumley and Andria Lisle.
- Use your sewing skills to create and make different textile projects.
